

COVID-19: Effects on Underserved and Minority Populations

Drs. Lori Bateman, Spencer Durham, Paul Goepfert, & Jeanne Maeeazzo Wednesday, February 16, 2022 at 12pm CT

PROGRAM OVERVIEW

The COVID-19 pandemic has caused widespread infections across the globe, with hundreds of millions of cases confirmed worldwide. Although all population groups are affected, the pandemic has affected minority and underserved populations disproportionately compared to other groups. This presentation will examine the reasons why these groups have been more significantly affected and will identify ways to alleviate these health disparities.

There is no registration fee for this program.

Following registration, participants will have access to course instructions, updates, presentations, webinar link, program evaluation, CE certificates and credits, etc. **This program is approved for 1.0 ACPE Contact Hours, .01 CEUs.** Once credit is awarded, transcripts will be available online within 24 hours on the learner's CPE Monitor profile at http://nabp.pharmacy/. **This program is also approved by ABN and ABSWE.**

The Office of Alumni and Professional Affairs strongly encourages each participant to check their profile online within 60 days of attendance to ensure credit has been awarded properly. ACPE will not accept CE submissions after 60 days from the live seminar date.

This project was funded in part through a grant from the National Heart, Lung, and Blood Institute, #OT2HL156812 – Alabama Community Engagement Alliance against COVID-19 Disparities (Alabama CEAL) project, under subcontracts with Research Triangle Institute and Westat, Inc.
